

# SEMINAR ON SMS-BASED SERVICES FOR AIRPORT TRAVELERS AND TOURISTS

SMS is one of the most commonly used telecommunications services. In this project, we have extended SMS to provide value-added services for airport travelers and tourists. The major developer, Lau Hiu Fung will present the interim project results.

## ABOUT THE SPEAKER

Lau Hiu Fung received his BSc (1<sup>st</sup> Class Honours) degree in Computing in 2009. His final year project has won three gold awards:

- Hong Kong ICT Awards 2009: Best Innovation & Research (College & Undergraduates) Gold Award
- Gold Award in 2009 Amway Pan-Pearl River Delta Region Universities IT Project Grand Competition
- Gold Award in the Hong Kong RFID Awards U-21 RFID Awards 2009 (Undergraduate Stream)
