

Dr. Winnie Tang Spoke at the Information Engineering Leadership Camp of CUHK

Dr. Winnie Tang, JP, President of Internet Professional Association (iProA), was invited as speaker at the Information Engineering Leadership Camp, organised by The Chinese University of Hong Kong on June 22, 2010.

As a part of the orientation for freshman students, they were invited to attend the Camp to gain better understanding of the university life and meet with university professors and current students in the university campus. A luncheon talk was organized, where Dr. Winnie Tang spoke on the topic of "The Trench and Opportunities for Information Engineering". She shared her views on the future of Information Engineering and her working experience in the ICT industry on how to achieve success and tackle with work-related challenges. With most students not knowing exactly which career path they will take in future at this early stage, Dr. Tang provided useful advice to encourage them to gain some work experience and try a few things to find out more about their career aspiration before deciding which path to take as their lifelong journey. She also encouraged youth to seek to leverage on technology to add value to the society. Her sharing had aroused great interest among the students especially in her career success.
