

## iProA Offline Club February Happy Hour Gathering

### **The Lifestyle of 2010 Series: Happiness through Wine Tasting, Exploring Antarctica and Effective Communication**

For this year, iProA Offline Club's main focus is to provide great events that bring Happiness to everyone. Two events have been successfully held in February at sponsored venue Vintelligence, and attracted more than 50 participants, bringing meaningful and joyful moments, lots of laugh, excitement, sharing, and savory experiences.

### **The Lifestyle of 2010 - It is time for New World Wine Tasting and Antarctica Exploring**

While tasting fine wine on February 5, Dr. Dominic Chan ushered us to his life experience adventure to Antarctica, the freezing cold South Pole yet extremely delightful and cool spot. We now know that you don't have to be "newly wed, over fed, and near death" to go to Antarctica.

### **The Lifestyle of 2010 Series: Never Lonely Programme**

The next event took place two weeks later on February 23. Continuing with the same sponsored venue Vintelligence and more fine wine tasting, our Co-chairman Mr. Emil Chan, together with his two guest speakers, Ms. Joyce Wong, and Mr. Thomas Ding led us to explore another wonderland: our mind. Through their NLP introduction, we were enlightened with the importance of effective communication, which embraces the broader meaning of caring, love, understanding, sharing and respect. It is time to better communicate with your loved ones.

We thank you for your support and participation and look forward to meeting with you in our coming events. If you have any suggestions on the next topics that should be of interest to our members and friends, please come forward and share with us. Your input would be greatly appreciated.
