

Dear iProA Council & Ex-co Members,

On the 70<sup>th</sup> Anniversary of the Faculty of Science of the University of Hong Kong, iProA would like to pay homage to the Faculty for its academic excellence and dedicated efforts in nurturing talents which have resulted in a consistent record of turning out leaders for our society.

We also pay tribute to the 43 Distinguished Alumni of the Faculty and take delight in acknowledging that our President Dr. Winnie Tang, JP is among the selected Alumni. Their outstanding achievements not only display their devotion to their own professions, but also demonstrate their strong leadership and the earnest attitude of serving the society. Their diverse contributions have attested to the value of science education which provides a robust foundation for leaders to excel on various fronts.

iProA hopes that our present and future leaders will be enlightened by the alumni. We also wish that the HKU Faculty of Science will continue to advance its excellence and stay at the forefront of science education in the region.

Kind regards,

Leo Kan

Honorary Secretary
