Appeal to the ICT professionals and associates
for generous donations to help the victims of the Snowstorm in need!

As we are all aware, the recent spate of horrendous weather in China has caused immeasurable problems for all those affected. The huge snowfalls have led to problems in all facets of life for those living in many parts of central and southern China. Road closures have led to delays and cancellations in the public transport system and power outages caused by ice forming on power-lines have led to loss of heating and light which affected millions of people. This is not only causing heartache for millions of people but are also costing lives of many people who are unable to receive medical assistance as a result of the adverse weather conditions.

We have the ability to lend a helping hand to our friends in the Mainland through offering financial support to those in need. iProA together with HKCS sincerely invite all ICT professionals and associates to join in raising funds to help all those in need in Mainland China during this crisis. All collected funds will be donated to the Hong Kong Red Cross.
