Dear Madam / Sir,

We cordially invite you to the Huawei Cloud AI Summit Hong Kong 2025 on 20th Nov at Cyberport Arena, Cyberport Hong Kong.

As computing infrastructure advances, model capabilities deepen and reasoning power accelerates, expanding AI's application boundaries and igniting the next wave of industry intelligence. As an international hub for technological innovation, Hong Kong is poised at the heart of the transformation. Huawei, in Hong Kong and for Hong Kong, is committed to being the most dependable partner for industry intelligentization.

This summit will focus on AI across the full spectrum from foundational research to industrial deployment. Expect in-depth policy analysis, breakthrough technological showcases, and compelling industry case studies. We will spotlight initiatives led by Huawei and our partners to nurture local talent and celebrate the achievements of the Huawei Developer Competition Asia Pacific winning teams.

Let's partner to explore the deepest capabilities of artificial intelligence, pioneer industry changing solutions, and achieve shared success in the era of industry AI.

Sincerely,

Jason Zhang

Managing Director, Huawei Cloud Hong Kong

Exhibition at a glance

Huawei CloudMatrix 384

Huawei Cloud AI Mirror

By taking photos uploading them to the cloud, our cloud AI and large models can generate multiple photos and videos of the AI scene experience within 5 seconds, which you can download by scanning the QR code.

AI Glasses: AI Agent

AI smart glasses connect in real time to large models for Q&A, recording and summarizing, translation, and recognition of people, objects, and scenes; they generate icebreakers via haptics and voice and enable multimodal intention understanding, emotion recognition, and dialogue assistance for social interaction.
